Conservative Members Who Retired from Lumsden Committee Expose Dishonest Nature of Inquiry in House

#### FULLY INTENDED FOR WHITEWASHING

Mr. Lumsden Further Examined Before Committee—Tariff Debate Adjourned at Request of Mr. Borden

OTTAWA, March 31—The government had an unpleasant time in the House today when the three opposition members of the Lumsden com-

tion members of the Lumsden committee, Messrs, Barker, Lennox and Crothers, laid bare the reasons why they resigned from that body.

Some sizzling shot was poured into the government ranks, and a full-dressed debate, lasting for six hours, was participated in.

Houghton Lennox, who started the talk by moving that the report of the committee be considered, characterized the proceedings of that partizan inquiry as an absolute and damnable farce, and an outrageous, ridiculous and thoroughly dishonest inquiry, which added another blot to the already spotted record of the Laurler administration.

The defence was left to three of the four Liberal members of the committee, Messrs, Clark, Geoffrion and Macdonald. They refused to admit that the minority had any grievance, and claimed that the investigation was a fair and ample one. Mr. Macdonald read the three Conservatives a lecture on their duty as members of Parliament, while Mr. Clarke denounced them as a little gang of quitters. At times the cross-firing was hot and heavy, the opposition holding up to ridicule the spectacle of four Liberal members and eminent Liberal counsel investigating alleged wrons-holding on the part of the government. It was not an inquiry which would command public confidence, and that from the first it was evidently intended to be a whitewashing body.

Messrs, Barker, Crothers and Lennox made it clear that they resigned rather than become party to a farcical investigation in which the public was not represented. Shortly before 11 o'clock the talk was wound up by Messrs, Meighen and Lancaster, and Mr. Lennox's motion to consider the report was then withdrawn. While it lasted, however, it was one of the best debates of the season.

R. L. Borden, who returned after an absence from Ottawa for several days, had a splendid reception from his followers when he entered the House.

Before adjournment Mr. Lennox brought up the matter of Mr. Clarry, the agent of the Department of Justice, who is alleged, while acting in the capacity of investigator of

Mr. Graham said he had sent an official of his department to investigate the charges, and he expected to have a report tomorrow an; he hoped that payment would be deferred until the matter had been thoroughly ventilated. Mr. Graham said Mr. Clarry was employed by the justice department, and he could not say whether he would be paid or not.

At Mr. Borden's request the debate of the terrif charlest good over until

### SALE OF GOVERNMENT LOTS

The first sale of government lots in Stewart Townsite will take place in this city on May 31st. Stewart Williams will have charge of the sale.

R. C. Smith, K.C., was continued this morning before the special committee of investigation. He declared he had no recollection of suggesting to Woods, chief engineer of the Grand Trink Pacific, to deduct a lump sum of \$100,000 for certain contractors on the question of over-classification. He had recommended the dismissal of Major Hodgins, but was not prepared to say that the latter's charges were the result of such dismissal.

Announcement That Hundred Thousand Miners Have Quit Because of Failure to Agree on Wage Scale

#### SOFT COAL REGION **NEARLY ALL AFFECTED**

Men Gain One Victory in Indiana District-Steel Plant at Lorraine, Ohio, Closes Through Shortage of Fuel

CHICAGO, March 31.—Three hundred thousand organized miners of the bituminuous coal fields of Pennsylvania, Indiana, Illinois, Iowa, Missouri, Kansas, Oklahama and Arkansas quit work last night. The members of the United Mine Workers of America declared the walk out was not a strike, merely a suspension of work pending an arrangement between themselves and the operators for another year, the old scale baving expired with the month of March. They demand an increase of pay in some instances of five cents a ton and in others more, and certain changes in working conditions.

Confidence was expressed by the operators that there will be no general coal famine, large supplies of fuel having been secured in preparation for the walkout. While the miners predict the suspension will be cut short by a prompt signing of a wage scale, some operators maintained that the miners might be kept closed for a month or sixty days, or even longer.

The conditions in the various states were as follows: Illinois, 900 mines closed and 75,000 miners quit. Indiana, 18,000 miners out. Pennsylvania, approximately 40,000 miners out. Iowa, every mine in Iowa closed pending settlement wages. Ohio, all miners quit. At Lorraine, Ohio, one steel plant shut down and threw out 4,000 workmen, the managers announcing a shortage of coal.

The first victory for the men came in an announcement from Brazil, Ind.

of coal.

The first victory for the men came in an announcement from Brazil, Ind., the centre of the Indiana block coal district, where it was announced that the men's demand for a five cent increase would be granted.

President Thomas L. Lewis, of the miner's union, declared that 300,000 had quit work today.

### **COMMISSIONER TAIT** TAKES THE STAND

Tells of Result of Investigations Conducted by Him-Royal Commission Continues Its Session—Chinese Evidence

Declaring that extortion is being practiced against the keepers of ill-famed resorts by owners of such properties and that he for one was desirous of protecting the women from such fleecing. Police Commissioner Tait, the first of the police commission which is inquiring into graft accusations, flatly denied on the stand yesterday afternoon that he had ever been approached on the question of taking money, or that he had ever been approached on the question of taking money, or that he had ever heard of money being taken. Commissioner Tait stated that in the course of an investigation me had carried on he had learned that a man, whose name was afterwards said to be Lorenzo Reda, proprietor of a hotel in North Vancouver, derived a total remail of \$1,000 a month from five "shacks" on Chatham street, near Store street, and that the rentals for these were collected regularly by one R. S. Kay, whose address was, care of the Empire Hotel. This, commissioner Tait intimated, was but one instance of the extertion that was being practiced on unfortunate women. Asked by Judge Laungman what remedy he could suggest. Commissioner Tait said that one remedy he had thought of was to let the owners of these houses know that unless they acted more fairly the houses would be closed immediately.

Referring to questions asked him about two up-town houses which the commissioner Tait declared that these houses had not closed, Commissioner Tait declared that these houses had not been closed, because the keepers owned them and the commissioner Tait declared that these houses had not closed, because the keepers owned them and the commissioner Tait declared that these houses had not closed, because the keepers owned them and the commission yesterday again attracted a crowd that

at least,

The sessions of the commission yesterday again attracted a crowd that packed the court-room. The excitement at the forenoon session was provided during the re-examination of Lung Juck, one of the Chinese who testified on Wednesday. Several statements made by this man were contradicted by other witnesses, and when the discrepancies were put up to him straight Lung Juck replied confusedly. Afterwards, Judge Lampman warned him that he had even then gone far enough to lay himself open to prosecution for perjury, and that the court would brook no further falsifying. Lung Juck was also detected in the course of reporting an item from his account book in a suspicious manner. The result of this was that at the starge of an expert, Chinese accountant which were supported to the search and the course of the specific such as the afternoon session the book was placed in charge of an expert, Chinese accountant which were supported to the second of the seco

Easiles Mr. Tail, practically all of esterday's witnesses were Chinamen, several of them were wealthy merhants, and with the exception of one r two they all denied absolutely the ossession of even the most remote nowledge of any gambling or grafting of Chinatown. Mr. Robertson again cought out facts relative to the encromagn out of the contentions of the British Columbia shippers.

"Agent for what."

"Oh, agent for lottery; sell ticket."

"Yes; he was a gambler."

"Oh no, no tickink he gambler."

On Hing protested that he had no interest in the lottery. It was run only by King Chow, who, it developed, had "gone to China." On Hing did, however, know a man named Hughes, agent for a local wholesale house. "All China town know him," On Hing said. Then On Hing admitted that Hughes sometimes did business for him. At times he collected rents for On Hing's house on Herald street.

"I'm going find out now," said On Hing, putting on his glasses, as he bent over the book with Oh Wing. A long consultation followed, and then the court asked about the rent again. "I'm just going to find out." replied On Hing evenly.

"Oh," said the court, "I thought you."

showing that originally he had received \$80 a month, but later, after some police difficulty the rent had been cut to \$40 a month. But for the last three or four months the house had been vacant.

Questioned as to where the money came from the pay for the defence of the lottery cases last year On Hing said that all the Chinese agents collected money and hired Mr. Alkman to defend them. The money was paid over, on a part of it, by On Hing's own bookkeeper.

Asked If Mr. Hughes collected any of the money for Mr. Alkman's expenses On Hing declared none was. He also swore that he never paid Hughes anything for protectien; that he merely bought "lots grocery" from Hughes. However, he paid Hughes 10 per cent. commissions. On Hing could not elucidate this at all. His poetic mind again was shown when he explained that he did not bother to look at the books. He merely "listen in the wind."

"But you saw that the money was there," observed Judge Lampman.

An expressive smile was the only answer.

"Agent for what?"

The feature of the realty market continues to be the inquiry for Esquimalt property, but the agents state that there is very little listed and that it is impossible to satisfy those eager to invest. The activity in residential sales is still most marked, and the agents expect a very busy time during the summer.

Yesterday the residence known as "Maplehurst" on Blanchard street, formally occupied by the late Mr. Justice Walkem, was sold by auction, the purchaser being P. R. Erown and the price \$15,000. The house is a large two-storey residence standing in about three and a quarter acres of ground. The old residence formerly owned by H. Saunders, at the head of Pandora avenue has been purchased by the Hon. Thomas Taylor- for \$8,000.

There is a considerable demand for property in the vicinity of the Gorge One firm alone, that of J. Greenwood & Co., has transferred four half-acre blocks in that locality within the past few days. One was sold to Mr. Sargent of this city for \$1.500; another was bought by Mr. Spragge for \$1,500; while a third was purchased by J. Dunham, a well known resident of athin. The sum involved in the latter deal was \$1,400. The foarth plece was purchased by T. A. Kennedy, of Fort William, for \$2,000. All of these holdings are situate on the Gorge Road. Hewlings & Co. report sales aggregating \$27,000 during the month which has just closed. These included properties on Douglas street, in the Finlayson estate, on the Esquimatir road, and in Sooke and Saanleh.

Grant & Lincham report the sale of four lots on Linden avenue.

S. A. Baird has just sold a lot on Pandora avenue for \$1,500.

TRIESTE, Austria, March 31 .- The fiercest tornado in years, accompanied by heavy snow, has caused immense damage and loss of life in northern Austria. A passenger train was blown off the ralls near Muggia, rolled down an embankment and killed four per-sons, injuring eighteen. Navigation has been suspended and great damage has been done in the new harbor.

Visiting yachtsmen will be royally entertained, it is said, during the international regatta here next July. It would be well for the Victoria club, while preparing elaborately for the reception of their guests to take steps to make some entries in the races that will give the strange boats some difficulty in carrying all the chief honors. ## MANY APPOINTMENTS MADE BY EXECUTIVE

Inspector of Tramway for Province Named-Many Promotions in Civil Service Announced

The session of the provincial executive yesterday was chiefly notable by reason of the large number of civil service appointments decided upon, to take effect naturally with the opening of the new provincial fiscal year, today. One of the most interesting of these appointments was that of William Rac. a well known electrical expert of Vancouver city, to act as tramways inspector for British Columbia, under the special elegislation in this connection adopted at the resent session of the house. Another new appointment is that of J. P. McLeod of Greenwood, to be inspector of legal offices; while William E. Graves is named as assistant to the inspector of offices generally—W. J. Goepel. The vacancy in the shrievalty of Nanaino, created by the retirement upon superannuation of Sheriff brake of that city, is filled by the promotion to be sheriff for the coal city of Constable Charles J. Trawford, whose former position is taken by George Hannay.

The great majority of other appointments decided upon are also in the natural content of the brightest content of the coal city of Constable Charles J. Trawford, whose former position is taken by George Hannay.

# The Annual Spring War on Dirt Suggests These Goods from Dixi Ross

Good housecleaning cannot be accomplished without the aid of good instruments. Remember the old adage, "A new broom sweeps clean." We carry an immense stock of household tools and utensils—the very latest devices. We refuse to handle "seconds." Attribute the reason to honesty or expediency. Either is a motive we are not ashamed to acknowledge. We can therefore point with pardonable pride to our unrivalled showing of good, reliable goods. You are entitled to the best your money can buy and that is just what we offer you. C omparison of quality with quality, price with price prove the supremacy of these.

For this reason we are inclined to the opinion that the time is not far distant when working men will, of their own accord take the steps necessary to prevent the exercise of such absolutism.

#### THE TARIFF AGREEMENT.

Mr. Fielding seems to have found in resident Taft a statesman who was animated by a spirit of conciliation. He as asked to surrender very little and it is of course of great advantage to Canada to be brought under the United States minimum tariff. We have no hesitation in saying that President Taft's course has been eminently fair and will create an exceedingly favorable impression all over the Dominion. Doubtless he was not wholly actuated by altruistic motives. He realized that a large proportion of the people of the United States, if they thought about the matter at all, were desirous that to Germany's 128,000. This does not no obstacle should be placed in the way of the very profitable business now carried on between that country and Canada, and he was sagacious fitting that a few words should be what seemed at first sight to be a gentleman, who has controlled it for that perhaps the claim that the appliquestion of much difficulty. In view of the statements recently made that Germany was driving British commerce from the seas, it may be interesting to mention that in 1908 Britain built ships having a combined tonnage of 926,000 tons, to Germany's 207,000 tons; and in 1909, 991,000 tons look much like a loss of supremacy

We are favored with a long letter from a correspondent in which he points out how he thinks the cost of living in Victoria can be reduced. We shall try to make room for it, although his suggestions are almost impracticable. He is mistaken in supposing that the invitation lately extended to correspondents to discuss the increased cost of living had any special reference to Victoria.

The building permits for the first three months of 1910 equal those of the corresponding periods in 1908 and 1909 combined. This is a very satisfactory state of things. When these figures are published it must be understood that they refer only to what is being done within the city limits. Many residences have been completed or been in progress during the past three months in the suburban districts, of which no record is kept.

He Joked With Corpse

He Joked With Corpse

LONDON, March 31.—The story of a man who joked with a cerpse was old at Grimsby at an inquest on Josiah Curry, who committed suicide by hanging himself at the Prince of Walest theatre during the performance of "The Gay Gordons."

William Steers, the theatre watchman, said that in making his rounds with a lantern at midnight be came across a man bolt upright in the carpeater's shop.

Thinking it was one of the stage hands trying to play a trick upon him, he commenced joking with the man, but, receiving no answer, went closer and found that the man was hanging dead from a rafter, his feet just clear of the ground.

Deceased, who was a brother of themanging director of the theatre, had been addicted to drink. The Jury decided that he committed suicide while of unsound mind.

Wins Huge Lottery Prize

PARIS, March 3.—Al. Bompare salesman in the handkerchief dep ment of one of the great Paris ste has won the \$100,000 prize in salesman in the handkerchief dipartment of one of the great Paris stores, has wen the \$160,000 prize in the French State lottery. After taking shares in a lottery ticket with some of his fellow shop assistants, M. Bompard had a "presentiment" and, fedlowing the common superstition that a ticket purchased for oneself hy another person is lucky, got a frend to buy him another ticket. As he was home the other morning to walk to the railway station, as he had done daily for the past eighteen years, the list of lottery winners arrived. He opened it and found himself the winner of \$100,000. That morning M. Bompærd ran to the railway station, and, arriving at the shop, promptly handed in his resignation at the handkerchief counter. Since then he has disappeared, in order, as it is helleved, to escape the shower of congratulatory and begging letters which descend upon the drawers of the big lottery prizes. M. Bompard is married and has a little boy of eight.

Coldwin Smith and Discall
The name of Professor Goldwin Smith, who is reported to have sustained a serious ice accident in Canada, should have more than a passing interest for Englishmen. Something like forty years ago Prof. Smith was Reglise Professor of History at Oxford. He was also an ardent politician of advanced. Liberal views, and a friend of John Bright and, Glaustone. For some reason or anothe, he became the pet aversion of Disraell, who in "Lothair" refers to him as leaving the Old World in mistaken hopes of being better appreciated in the New. It was Disraell who also nicknamed him the "wild man of the west."

Well Known Comedienne Dead Many Victorians who counted that dainty comedienne among their friends will learn with keen regret of the death of Mrs. William P. Cullen, wife of the manager of "The Alaskan," and herself known professionally as Miss Ruth White, which sad even occurred last Monday in New York. Ruth White enjoyed the unique distinction of being the most successful of America's comediennes in what stageland knows as "boy's parts." She was last seen in Victoria in what was perhaps her less known characterization, that of Willie in "The Burgomaster," although she was distinctly popular also in the prima doma roles of "King Dodo" and "The Stork," She made her debut with the Savage forces as "Trilly," with the Wilton Lackase company in Du Maurier's play of the name.

#### Lillian Doon for Pantages.

Lillian Doon for Pantages.

There will be a double show at the Pantages theatre next week owing to an unusual misunderstanding and the result will be a big public benefit and undoubtedly the greatest amusement bargain ever offered to Victoria at cheap prices. The tremendous business being done and the increasing popularity of the Hunt Musical Comedy Co., caused the local management to engage the company for another week while the regular booking office arranged for Lillian Doon the celebrated mind reader known as "The Mystic Maid of the Century." to appear in Victoria next week. Both contracts are effective and the only way out of the muddle is to play both attractions at the same time which means that a crowded house at each performance will not pay the big salary list. "The Devil up-to-date" now at Pantages continues to attract large audiences.

#### Animated Pictures.

Animated Pictures.

The regular programme of animated pictures and illustrated songs will be presented at the Victoria theatre this evening and again tomorrow evening with a matinee tomorrow afterneon to which children will be admitted for half price. In connection with the pictures the guessing contest will also be continued, and the person making the nearest guess to the number of beans in the bottle that is on view in the lobby of the theatre will receive five dollars, the second will receive an order for three seats at the opening performance of the Allen Stock company and, the third two seats. The prize for tomorrow afternoon will be a handsome doll, this is being done owing to the big number of children who patronize the show.

"A Man's Man"

"A Man's Man"

Mr. Robert Edeson presented "A Man's Man" at the Victoria Theatre last evening. It is a very good play, with a plot that is not too involved but well thought out. The interest is admirably sustained. At times there are intense passages, but the author has not overdrawn them, and they were rendered in a manner wholly in keeping with the lines. Mr. Edeson is an actor of much talent, and he was admirably supported.

#### "The Rejuvenation of Aunt Mary"

The ball committee of the Native Sons have much pleasure in announcing that their eleventh dance will take place on April 29th next in the Empress Hotel, permission having been obtained through the manager for that date. What with the good fortune to obtain such a lovely building, and the fact that the members of the association are doing everything in their power to make this ball the best that they have ever given, and special car service having been arranged, it is expected that this will be the most brilliant function that Victorians have seen for some time. Details will be given later as to cars and so forth. seen for some time. Details will be given later as to cars and so forth.

Eight or nine hundred prominent Victorians were entertained by the two local Masonic lodges—Victoria No. 1 and Vancouver and Quadra, No. 2—at the new Temple, Douglas street, last evening.

"The Rejuvenation of Aunt Mary"
Lovers of good comedy have a treat in store for them when they go to the Victoria Theatre and see May Robson in "The Rejuvenation of Aunt Mary," that delightful comedy by Anne Warner. Miss Robson has scored a tremendous success in this comedy and has played it for eighty-nine consecutive weeks from coast to coast, having played in all the large cities. Miss Robson's portrayal of Aunt Mary is a delightful piece of acting, and those who see her will go away wishing they had an Aunt Mary just like her. To see her is to love her, so delightfully sweet is her acting of this New England aunt.

The Rejuvenation of Aunt Mary" is in three acts. The first and last take place in Aunt Mary's home in the country, and the second is laid in New York city. The story of the play concerns a maiden aunt who lives in the country and cares nothing for the city. She has a nephew who is attending college in New York, and being a wild young man, gets into all kinds of scrapes, which Aunt Mary is compelled to get him out of. He gets into a light with a cabman and beats him up badly, and to get out of it he comes to his aunt for five hundred dollars. In the meantime, he is expelled from college. Aunt Mary agrees to pay the five hundred dollars and send him to some other college if he will be a better boy. When everything begins to look rosy again for the eighes, and informs her that the girl from Kalamazoo, whom Jack met in Chicago, is suing him for twenty-five thousand dollars for breach of promise. This is too much for Aunt Mary. She will have nothing to do with Jack and disowns him, and calls her law-I and Vancouver and Quadra, No. 2—at the new Temple, Douglas street, last evening.

The entertainment took the form of an "At Home" and was the first of its kind held here for years. As is always the case with anything undertaken by the Masonic Order, the arrangements were thorough, the large crowd being handled without undue confusion and given a splendid time. The proceedings were most informal, the thousand or more invitations is sued through the members of the two lodges being designed to give their families and toeir intimate friends an opportunity for pleasant social reunion. and set who contributed and their selections were: F. Waddington, the Song of Thanksgiving? Mrs. Staneland. "A Wreath": Mr. Dowler, "A Bandalero": Messrs Waddington and Russell. "The Moon Has Raised Her Lamp on High." Messrs Waddington and Russell. "The Moon Has Raised Her Lamp on High." The remainder of the evening was spent in the dance, the merry throng concluding the festivities by paying tribute at the shrine of Terpischore.

Empress Theatre Changes Hands
The Empress Theatre, which has been conducted as a moving picture concern by Burdick Bros., of this city, for some time past, was purchased yesterday by Mr. Geo. A. Levelle, Mr. Levelle has been infimately connected with the theatrical prefession for the past seven years, and it is his intention to present only the finest pictures procurable. He will horoughly renovate the theatre, and will conduct along popular lines, catering especially to ladles and children. The musical programme will be a special feature, as Mr. Levelle himself will have brother his aunt telling her he had the measles. Jack explains that the party is given in her shonor. tinct surprise to those who have never seen or heard her, and to those who have watched her from season to season on she is a source of much satisfaction. No one can but acknowledge she is clever, and considering her age and opportunities she has done so well, it is predicted by many who understand and recognize talent that she is bound to come to the front rank in the emotional school. Although she is already recognized as an emotional actress, it is not alone in this class of work that she makes a hit, but to see her play "Zaza" or "Camille" one night, and the next night watch her in a production like "Hello Bill," or "Our New Girl," both farce comedies, is a revelation. Miss Felton has a supporting company which has been together for the past seven years, and this fact alone should speak well for the management and excellence of the aggregation. The Regina (Sask.) Standard says: "They are a success, and always will be as long as they keep up their conscientious and united work, and retain the same capable management."

The Allen Players are firm believers of newspaper advertising, as their success during the present season can be in a great mensure attributed to this excellent source of putting themselves before the public.

the matter of letter writing? Il so she is to be envied. There is no duty that is in these days so generally neglected. That it is a duty each one knows who tries it by the golden rule. There are few indeed who are not glad to receive letters from absent friends and relatives. In many cases such letters brighten days not too full of happiness. While those whose lives are full of interest may not feel the loss keenly, the sick, the lonely and the sad long often for word from the absent with an aching heart. There is, even among the most careless, a sense of something missed from their lives when at least the old links fall apart, and the silence broken at longer and longer intervals at least completely divides them from those with whom they were once in constant and close accord.

While the women of England, of the United States, and, to some extent, of Canada, are claiming the right to vote, a Frenchwoman, Madame Marguerite Durand, is asking her fellow countrymen to elect her to a seat in Parliament. This lady, who hopes to have a direct voice in the making the laws of her country, does not believe in the methods of the Suffragettes of England or those of the women there and in other countries who speak of men as enemies. But she does think women should have votes. She says that women represent more does think women should have votes. She says that women represent more than half the population and that more than half earn their living and pay taxes. Madame Durand is not anxious that women who have husbands and children should enter the political field. They can afford, she says, to hold aloof, as many men do, from political and social questions. However the doctrine is received in France, it would meet with little favor from Suffragettes on this side of the Atlantic.

no obstacles will be placed in the way of the re-uniting of families. The natural and the best way, in many cases, is for the father to come first and prepare a home for wife and children. It is said that now many such fathers have to bear the bitter disappointment of seeing their wives and children forced to return after landing in Canada, on account of some disease of physical weakness from which one child suffers. The Canadian immigration laws ought to be published by the agents both at home and in European countries, so that no family who could not enter the ports here would be allowed to leave their native land. To make such regulations ought not to be beyond the wisdom of the legislators of Canada and the older lands.

March 22 has always been an unlucky day for Capt. Cross, of the steamer Sonoma. True to tradition ill fate pursued him on Tuesday last. On the up trip in the morning he fell into the Fraser while making a landing at Westham Island. Only the fact that he is a powerful swimmer saved him. That should have been enough bad luck for any ordinary man on one day, but the cruel fates were not through with the captain. On the afternoon he got a 'steenth of a foot out of his course while passing the bar in the rear of Lanning, Fawvett & Wilson's store, and ran the Sonoma hard son's store, and ran the Sonoma hard on. The bassengers had to be trans-ferred ashore in a gasoline launch and the steamer did not get clear until high tide, about 2 o'clock the following morning. The captain says that next 22nd of March he will take a holiday and stay in bed all day.

There will be in May a great meeting of the Federation of the Clab Women of the United States in the city of Cincinnati. Like all such meetings it will bring no little profit, direct and Indirect, to the city in which it is held.

San Francisco, which is very strong in club-women, is ambitious to have the next meeting, which will take place in 1912, in that city. But San Francisco has no building which the women consider suitable for the entertainment of their visitors and the accommodation of the audiences which will crowd to hear distinguished speakers. They have amounced that they will issue no invitation at the Cincinnati meeting unless the residents of San Francisco help its club-women to creet a building worthy of the city, of them, and of the Federation, it is not likely that the

## LACROSSE AND BALL NOW ATTRACTIONS

Winter Recreations About Concluded and Sportsmen Begin to Turn Attention to Summer Pastimes

Now it's lacrosse and baseball. The football (soccer and Rugby) season is practically ended. Likewise the basketball series are about concluded. With the winter schedule's windup comes the spring weather and its arrival turns the thoughts of the athletically inclined to the summer pastimes. In Victoria, if present indications are correctly interpreted, those in which the local sporting public will be most interested are the recreations commonly termed the national exercises of Canada and the United States. As for baseball, it is known already that Victoria is to have a first-class team. Manager Watalett has taken the preliminary steps. He has discovered that there is plenty of amateur, material at hand. All that is necessary, he declares, is that it be properly moulded. And it is his intention and that of those associated with him, to see that that is done. They promise Victorians a nine that will be capable of making a creditable showing against the best of the Pacific northwest, so that the fans should be given some treats. Now it's lacrosse and baseball. The

Oakley B. Bush, of Vancouver, the Ice Flyer, Returns to Canada After Visiting Switzerland

MONTREOL, March 31—Oakley B. Bush, the one-armed speed skater, of Vancouver, B.C., has returned from Europe, looking the picture of health. Bush has spent the winter in Switzerland, and is now on his way to Toronto where will spend a couple of weeks before proceeding to the west. While in the Alpine country Bush indulged in all winter sports for which that land is famous, but did little les skating. "I was too far above sea level," he explained. "I skated at Davas, Switzerland, and won one race against the best they had there. I also got a record for 5,000 metres, but outside of this I could not do much. The air was too rare for me, and, anyway, Canadian skaters of the present day do not have much use for the

At a recent meeting of the Victoria Yacht Club preliminary arrangements were made for the international re-gatta, which will take place here early in July. It was reported that the funds to be devoted to the entertain-

towards shaping up for participation in the various races. Though the home fleet isn't strong numerically there promises to be a number of botts of sufficient speed to, make a creditable spowing against the best of Vanicouver, Seattle and the other important centres. Among the recent notable acquisitions is the Allsa, purchased by Mr. Cuppage, and brought from Vancouver. She isn't a racer, but is one of the most comfortable cruisers in these waters. Measuring thirty-six feet overall and equipped with an auxiliary engine she is the character of craft to make a summer's outing among the Gulf islands a genuine treat. There is some talk of putting a number of the other local boats in shape for the races, but there isn't enough definite information available to render an announcement possible.

## FAMOUS SOCCER ELEVEN COMING

Amateur Footbal astest Team of Old Country Will Play in Victoria in a Few

"The Corinthians are coming, hurrah, hurrah!

One of the fastest amateur soccer teams of the Old Country is going to make a tour of Canada, and will wind up its tour with one of several exhibition matches on Vancouver Island. The Britishers will play a Victoria team here in all probability, although there is a likelihood, in the event of it being impossible to visit Ladysmith and Nanaimo, that the visitors will arrange to meet an All-Island eleven at this point.

This announcement was made by G. A. Parker, representing Harmsworth's publications, and incidentally making the financial arrangements for the Corinthians' trip, yesterday. Mr. Parker has been in the city several days and intends remaining until about the end of the week, because, he declares, It's pleasant in Victoria and it's not a place one wants to leave hurriedly."

Mr. Parker is no stranger to the Canadian West. He has been in the habit of making a yearly tour of the Dominion for three or four years. 'At first it was for "The People," an Old Country publication, but now it is for the largest of the 'world's newspaper syndicates. As always, Mr. Parker is

If Calgary won, the team would have to go to Montreal. In the event of Vancouver being successful that city's eleven would have to make the trip in order to hold the emblem which represented the Canadian championship. He was sorry to note the effort being made to introduce professional football into British Columbia. It was his opinion that the time hadn't arrived for that kind of thing. The population wasn't large enough, However, he didn't wish the promoters any harm, and, perhaps, they understood local conditions better than he—a mere transient.

The Corinthians who would visit the The Corinthians who would visit the Dominion, he thought, would be strong enough to defeat any of the Canadian aggregations: The eleven would be taken from the best material available in the Old Country. Their combination, shooting, and defence when pressed would, he thought, be an eye-opener to the sportsmen of the west.

# Old-Time Pugs Trying Hard To Keep in the Limelight NELSON RETIRES FROM N.P.A.A.O.

nland Metropolis Won't Send Crew to Participate in This Year's International Regatta Indifference Criticised

NELSON, March 31—At the annual neeting of the Nelson Boat club last week, it was decided that in view of all the circumstances, it was best to send away no crews this year, and all the energies of the club will be bent loward popularizing rowing and canoe-ing at Nelson and building up the club. At the end of the year, if the expected happens, the club will be in a financial osition to assume larger obligations he following season, if it so desires.

One of the factors that entered into his decision was the indifferent en-ouragement offered outside crews on he last occasion by the management of the regatta at Scattle. T. D. Des arisay, who trained and accompanied he Nelson crew to Scattle, reported that one side of the course was 75 feet that one side of the course was \$\bar{15}\$ feet shorter in every 1,000 than the other which made a considerable difference when it was a matter of miles. On a motion submitted by E. C. Wragge and W. Pearcy it was decided to notify the Northern Pacific Association of Annateur Oarsmen that the Nelson clut forthwith withdrew from the association for reasons to be set forth in the letter, one of them to be that the association could hardly expect interests.

# WILL CARRY VETO AND BUDGET TOO

Mr. Churchill's Statement in Debate on Mr. Asquith's Resolution-Opposition Amendment is Offered in House

LONDON, biarch 31.—The official Opposition amendment to Premier Opposition amendment to Premier Opposition amendments on the veto power of the House of Lords was moved in the House of Commons today by Sir Robert Bannantyne Finlay. It declared in favor of a strong and efficient second chamber and expresses willingness to consider proposals for the reform of the upper house, but it declines to proceed with the Government proposals, which would distroy the usefulness of any second chamber. Winston Spencer Churchill, the Home Secretary, declared that when the vato resolutions were disposed of the Government would advance with the Budget, regardless of consequences. Unless the House of Commons carried the Budget it was idle, he said, to look to the King or to the country to carry the veto bills, but he predicted that at the proper time and under the proper circumstances, they would succeed in carrying both the veto and Budget measures to the steps of the throne.

Mr. Churchill closed with a significant statement. "The time for action has arrived," he said. "Since the Lords have invaded the rights of the Commons, it has become necessary that the Crown and the Commons, acting together, should restore the balance of the constitution and restrict forever the veto power of the House of Lords."

Premier Asquith's guillothing motion, which is published tonight, provides that the committee stage of all three veto resolutions shall be concluded on the night of April 14.

#### TROUBLE FOR DERNBERG

German Colonial Secretary Suffers as Result of Policy in South-west Africa

BERLIN, March 28.—Herr Dernburg, the imperial colonial secretary, has suffered in prestige in connection with his diamond policy in German Southwest Africa. In order to regulate the diamond production on the state lands in the colony, he came to an arrangement with the Deutscho Kolonial Gesellschaft für Sudwest Afrika, onial Gesellschaft fur Sudwest Afrika, to the effect that the latter should exploit the fields, allowing the state 25 per cent, of the profits, or a maximum of \$2,000,000 per annum. The Reichstag: to whom the agreement had to be submitted for ratification, has requised to accept it, asserting that the state's participation was too insignificant. Almost simultaneously offers have come from financial concerns in Southwest Africa to allot the state 80 per cent., or a maximum of \$25,000,000. The effect has been to create a sensation in financial circles in Berlin, and to cause the Golonial Gesellschaft's shares to fall sharply.

After considerable strenuous play and some talking the Victoria Ladies' Hockey Club has won the local championship, and its symbol—the Wilkerson Challenge Cup. To them, congrapulations. Their rivals the girls of Victoria High school, however, gave them a hard fight. The latter should not be discouraged. They have the consolation of knowing that they gave the ladies the hardest matches they have experienced this season, whether in friendly or league competition.

# CONTROL OF RATES ON OCEAN CABLES

Postmaster General Lemieux Introduces Bill Agreed Upon With Imperial Authorities-Large Reduction Mentioned

OTTAWA, March 31.—Mr. Lemi-eux's bill to control the rates and facilities of occan cable companies and to amend the railway act with respect to telegraphs and telephones and the jurisdiction of the board of railway commissioners was given its second and third readings.

The postmaster-general said he had discussed the question in London with Hon. Sidney Buxton, and agreed to introduce the present legislation bringing cable companies under the authority of the railway board, as were the telegraph telephone and railway companies. He expected that by concurrent legislation passed in England and Canada the cable companies could be brought to establish a schedule of rates which for urgent messages would be the same as they were today, charging a shilling a word; for semitrent or deferred messages 6d. a word; and for press rates 3d. a word. That was the object in view.

In Mr. Lemieux's ophinon this was the next best step to a governmentowned cable between Canada and England. The question was discussed at length at the last imperial conference, and the sentiment was strongly voiced that there should be cheaper calle communication between Great Britain and Canada in order to disseminate news from the heart of the Empire, and so bind more closely together the mother country and her colonies. All the companies which touched Canadian territory would come within the jurisdiction of the railway commission. Canadian legislation must be implemented by British legislation, and when that was done an arrangement could be made both ways.

### CRITICISES VISIT OF PRUSSIAN PRINCE

London World's Remarks Induces Retaliation by German Steamship Lines—A

LONDON, March 31.—The World, which is edited by Lord Winterton, recently published a very crude and ill-tempered article on what it called "Prince Henry's Errand to Ergland," pretending that he had come here on a mission to assist in preparing something of an agreement by which "competition in naval armaments shall be limited if not arrested." It went on to describe him as "an agent of the German government," and said that pressure was being exercised by "a dangerous group of international financiers." "We are," it said, "to risk our na-

pressure was being exercised by "a dangerous group of international financiers."

"We are," it said, "to risk our national existence to make a few very wealthy men a little wealther. It is disgusting: a maddening idea." Further it wrote:—

"But those great financial houses suffer from illusions as much as the pacificists. The trident can no more be bought than wheeled out of our hands. Tax for tax, loan for loan, the German pocket will be emptied before ours is. They may trifle with a Liberal cabinet. But the first measures of the Unionists will be a loan and a naval programme that will stagger the most audacious Pan-German."

This article has led to a curious sequel. The London offices of the Hamburg-American line and the North German line have withdrawn their advertisements from the paper. This was the World's opportunity to produce another offensive article, In which it pretends that the German foreign office has actually been at work instigating the London representatives of the German authorities. It speaks of the German authorities.

panies to withdraw their advertisements.
It speaks of the German authorities as "the greatest bureaucratic bullies in history," and says that it "is a case of pure and simple intimidation by the German government,

"Such action is consistent with the traditions of the German foreign office," it goes on. "It preserves that unscrupulous policy which has become obsolete with other diplomats, and does not hesitate to use for its political ends either private relations, as in the cases of Prince Henry's visit, or commercial relations, as in the case of the World's advertisements. But in England it will not continue to do so with impunity, for the temper of the English people is rising, and persistence in such methods may lead to a catastrophe of appalling magnitude."

That two young girls, aged, respectively, not more than 13 and 15 years, will be arrested probably today and brought before the court charged with—Tinking in a false fire alarm last December, was the news that developed yesterday when Chief Davis asked for two informations against the alleged culprits.

Ever since mid-winter when a regular epidemic of false alarms began which has since that time kept the fire department on edge and caused no end of annoyance and extra expense Chief Davis has sworn to get at the offenders if it took till Doomsday. He has left no stone unturned to find out who the persons were who-caused the trouble and only a few days ago be uncovered a clue which led to his asking for the apprehension of these little girls, daugaters of respectable parents, on the charge of giving the department a long needless run in December of last year.

#### JAPANESE STEAMSHIP LINES RETRENCHING

Heavy Losses of Company Operating Big Turbine Liners to San Francisco — Russian Laborers From Vladivostok

With 86 passengers and 2,158 tons of cargo on board, of which 233 tons was discharged at the outer wharf, the was discharged at the outer wharf, the N Y. K. liner Tamba maru, Capt. Sato, arrived from the Orient yesterday. She encountered a heavy gale when near the meridian, during which the inaba Maru was spoken by wireless. Neither sustained damage. The saloon passengers of the steamer included Commander Salto, who commanded the steamer Jinsen maru when that vessel was sunk in the fairway of Port Arthur to cork the harbor with four other old cement-ladencraft, while Russian forts poured in a heavy fire, and who is one of the heroes of the Russo-Japanese war, M. Hayashi, son of Count Hayashi, minister to China, formerly foreign minister and minister to Great Britain, was also a passenger. J. E. Dessy, an engineer, who has been employed on a dredge engaged in the Cashmere valley under Major Allen de Lotbiniere, son of the late Sir Henri Joli de Lotbiniere. R. J. Macgowan, bound to London from Japan, and H. J. Hearne, of Yokohama, were among other passengers, the majority of whom were Japanese merchants. In the steerage 26 Japanese debarked here, a third of them being women, and for Scattle there were 55 Japanese and 10 Russians from Vladivostock bound to Scattle to seek employment as laborers.

Commander S. Saito, of the Japan

cargo Landed Here

The cargo landed here consisted of 450 bags of sugar, 250 mats of rice, 50 cases af tansen, 795 cases of misco, 404 tubs of soy, and 1367 packages of curios. For Seattle the steamer had 1330 tubs of crude camphor, 4.10 rolls of matting, 815 bundles of bamboo, 1,119 cases of procedain, 53 cases of team 1,292 slabs of tin, 3,389 mats of rice, 1000 bags of peanutes, 120 bags of nuts, 355 boxes of fire-rackers, 125 tubs of sake, 1,225 tubs of miso and soy, 1,399 packages of curios and 759 bales of slik, 82 cases of linens, 37 cases of malifactured slik, 22 bales of waste silk.

News was brought by the Tamba maru that the Nippon Yusen kaisha is retrenching. In 1908 a reduction was made in the staff of some of the agencies, and now announcement is made that eight of the company's steamers are to be sold. These are the Riojun Maru, which ran to Victoria in the early days of telline, Kagoshima Maru, another loneer of this service, Yamashiro Maru, Omi Maru, Yokohama Maru, Nagato Maru, Fushiki Maru and Hyoogo Maru. This means a reduction of about 190 officers and 400 members of crews, 13 toreigners being included.

Japanese liner Tamba Maru yest dray morning on his way to Washington, D.C., is one of the Jacpanese war. He have been supported with tanks of five old remainers of the Russo-Japanese war. He has a most interesting statements in 100 miles are discovered to the side of the shipping bureau of the government regarding the affairs of the Toyo Kisen kaisha, which operation the big turbine steamers to San Francisco. He said the Toyo Kisen Company was losing money, the causes being the tradal depression in the United States in 1908, the boyout by China against Lippanese steamers, and the attempt to run a line to South America, which had met with failure. He also said the company's project of carrying off in bulk from California, for which parpose steamers had been equipped with tanks, had failed owing to mile to the parpose steamers had been equipped synth tanks, had failed owing to mile to rescue h in bulk from California, for which purpose steamers had been equipped with tanks, had failed owing to unforseen conditions, and he also announced that the building of the large steamers. Chiyo maru and Tonyo maru, now on the San Francisco line, had been unjustified by events. He put the actual losses at \$440,000.

PARIS, March 31.—The state ownership of railways in France is not proving a success either to the public or to the employees, who were taken over by the government when the Western of France Railway ceased to be a private company and became state-owned.

From the passenger's point of view, the service has gone from bad to worse. Lackadalistical governmental methods are being introduced into the offices, and what is not accomplished today waits till tomorrow. Goods may be perishable, but the state clerk is not supposed to work more than a certain number of hours a day, and in a general way takes care that he does not do so. There are exceptions of course, however, for it is not possible to abandon a railway station or goods-vard entirely, and then cases of abnormal overtime arise.

The trouble arose with the strokers and drivers by the reducing of the employees wages, and also by reducing the staff at the various centres. The drivers and stokers, who belong to one of the most powerful unions in France, have shown their teeth in no uncertain manner during the past few days. Numerous interviews have been held between the men's delegates and M. Millerand, minister of public works, and as a result satisfaction has been accorded the men.

Well, said Mr. Robertson, see that you dont forget any more!

Lung Juck was then questioned again about the rentals received for certain houses owned by his company, asked how much money the company had in thank. Lung Juck said \$158 was the credit balance at the end of last year.

the handling of men for the roads.

Chow Kea's Status

Questioned by Mr. Tait, Chow Kee said that his company provided men for road gangs, saw mills, etc. Mr. Tait then announced to the court that he had done business with Chow Kee, and that his word was as good as his bond.

"Yes," said Judge Lampman, "that's the way with most Chinamen in business, but when they get in the witness box they take a hollday."

Mar Art, general merchant and druggist, an opulent looking Chinese business man, admitted that he occasionally gambled for the fun of the thing. He did not know that gambling was going on in Chinatown—that is, as a professional thing. He had never talked with the commissioners about stopping gambling, and had never heard of any money having been paid for protection. He had not heard about Chinamen being arrested for running lotteries, and had merely heard incidentally about the raid a few weeks ago.

At this juncture Mar Art asked the court to bear with him inasmuch as he had caught a bad cold in Vancouver.

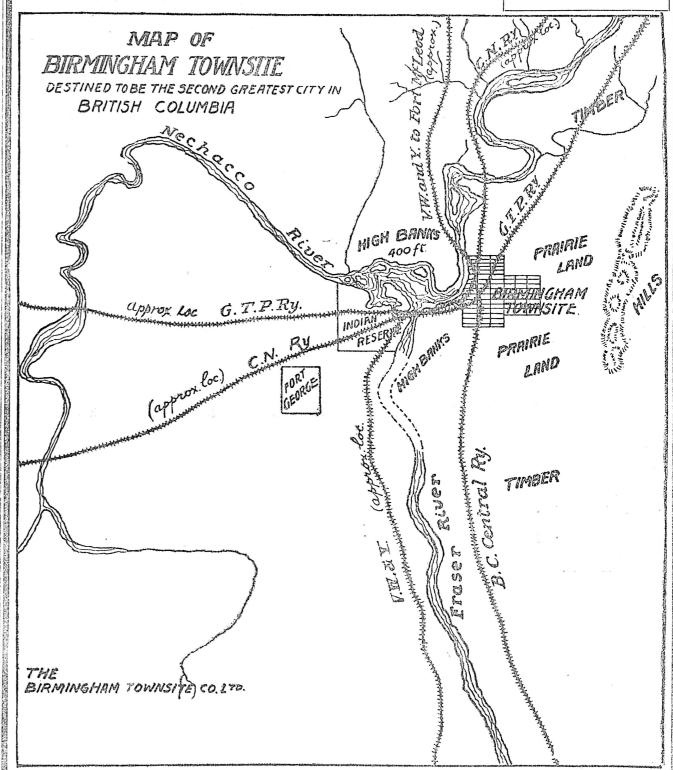

Questioned by Judge Lampman, Mar Art stoutly asserverated that he had never at any time patronized the gambling rooms.

Considerable comment is made in Japanese vernacular newspapers received by the steamer Tamba Maru today regarding the recent speech of Jacob Schiff, the well known New York banker, arousing America to the attitude of Japan in the Orient. Most of the newspapers refer to the Jewish nationality of Mr. Schiff as reason for enmity against Russia on which they base his statements. The Jiji Shimpo says it regrets Mr. Schiff should harbor the feelings indicated in his speech, and considers his utterance due to the failure of the proposals for neutralization of Manchurian railways.

That the annexation of Korea is imminent is the report published by a number of Tokyo newspapers received by the Tamba Maru. Considerable comment is made

Why Granby Broko.

As surmised, the big slump in Granby was due to the fact that insiders received advance information of an unfavorable report from the engineers, who have been investigating the mines. The Granby management has made the following statement:

"Incidental to the retirement of A. B. W. Hodges as superintendent, taking effect March 15th, the president, Mr. Langeloth, accompanied by George Crawford Clark, Jr., one of the directors, has visited the company's proporty, where they had been preceded by Dr. Otta Sussman, mining engineer. A full report of this visit is in coarse of preparation, and, as soon as completed, will be presented to the directors at a meeting to be held early in April, whoroupon stockholders will be fully advised of all matters affecting their interests. In advance of the completion of this report, it may be said that it will be disappointing as to the tenange of ore available for stoping, which will probably not exceed 6,009,000 tons."
Insiders have known for a long time that Granby has not pursued the course of replacing a ton of ore extracted with new ore, and, with the treatment of 4,000 tons daily, the result became plainly obvious. Recently word has been received from the Boundary district, that the company had taken under option new property for the purpose of open advanced from the presented to the directors of the form the directors of the first

Mr. Frank B. Smith, M. E., Dominion inspector of mines, states that 160,000,000 tons above the level of the railway is a conservative estimate of the quantity available.

Coincident with the break in the stock comes a statement from the Grandy company for the past six months. it shows a production of 11.167,644 lbs. of line copper sold at an average price of 13.139 cents, 172.054 ounces of fine silver sold at 5.155 cents, and 24.397 ounces of fine gold at an average price of \$20. The income account follows: Amount realized from production, \$2.055.564; costs, \$1.750.918; net profus, \$2.655.564; costs, \$1.750.918; net profus, \$2.750.900; surplus, \$1.750.918; net profuse that approximately from \$,000.000 tons of ore are now developed ready for extraction in the company's territory. The coal area consists of 17,000 the place of the company's territory. The engineers now estimate the amount at 6,000,000 tons, the only practical step in advance that found the proposed prop Robinson, ex-M. P.; Mr. James A. Brook Mr. James W. Pyke, Dr. Milton L. Hersey and Mr. Frank W. Brodle.

The coal area consists of 17,000 cares, containing five coal seams of an aggregate thickness of 16 feet. traced for about on miles. It is 35 miles east of Vellow Head Pass, on the line of the Grand Trunk Pacific.

In point of quality the coal is bituminous and, according to analysis made by the Milton Hersey company, Ltd., of Montreal; O'Sullivan, of Vancouver, and Galloway, of Cardiff, Wales, is excellent. The fixed carbon averages 6s per cent., with about one per cent, moisture and an extremely low percentage in ash. Its calorific power is 14,901 B. T. Great uncertainty exists as to the significance of the decision of the supreme court not to accompany the body of the late Justice Brewer to its resting place in Kansas City. The desire expressed by the chief justice to avoid delay in the public business, given as the official explanation for the decision, gives rise to a supposition in the financial district that the American Tobaccocase may be decided on Monday. The opinion is universal in stock market ericles that the handing down of that decision will be immediately followed by a pronounced movement of the market in one direction or the other.

Another matter receiving much attention was the number of railroads following the example of the Tennsylvania by advancing wages of employees. That action was of mixed effect on the speculative sentiment. The large increases in expense of operation in view of the high ratio of operating expenses already shown by monthly railroad reports and the consequent inroads on the net returns. Unensiness over the

# IMMENSE ARENA

Accommodation For Thirty-Five Thousand People Will Be Provided by Promoters of Jeffries-Johnson Fight

Instead of a scale of prices ranging all the way from \$10 to \$100 for seats at the Jeffries-Johnson fight, a seat which will run from \$5 to \$10 will grevail. Rickard decided on the 50 per cent. cut after carefully studying the situation out and comparing notes with his partner, Jack Gleason. Between them they figured that on this new basis it will be possible to take in no less than \$700,000 at the box office, though, of course, the fight will not draw this amount.

According to the rough plans, the

office, though, of course, the fight will not draw this amount.

According to the rough plans, the arena will be about 220 feet square, and will rise up to a height of forty feet at the top of the bleachers. It will seat in the neighborhood of 35,000 people, and if the demand for seats is greater than anticipated additional seats can hastily be thrown in so as to bring the capacity up to 50,000. This certainly should suffice. The design calls for the use of half a million feet of lumber. The cost of the arena, including the tearing down and clearing away of the debris after the fight, will amount to \$15,000, and this Rickard estimates to be an absolute loss.

The Nevada promoter's mind is brimful of great plans and novelties which he will work off as quickly as things begin to shape themselves. Among the favored few who will receive personal invitations to occupy ringside boxes are President Taft, former President Roosevelt and John D. Rockefeller.

There will be ten entrances to the arena, and the crowd-may pass in ten

There will be ten entrances to the arena, and the crowd-may pass in ten abreast just as fast as it wishes to jam its way along. In this way Rickard believes that a crowd of 100,000 can be readily handled without difficulty or confusion. Every seat in the arena will be numbered and placed on sale many days before the contest. This includes even the bleacher seats, which will be knocked down at \$5 a toss.

ringside about twenty-five feet back."
"Even the gallery seats will be numbered and sold in advance at \$5. Then there will be seats at the following prices: \$10, \$15, \$20, \$25, \$30, \$35, \$40, \$45 and \$50. The arena will be so arranged that there will be a perfect view from every part of it up to the last row of the bleachers. There will be no scalping, if we can prevent it."

NOTICE is hereby given that the re NOTICE is hereby given that the reserve notice of which was given in the Gazette of the 28th of October, 1999, reserving all foreshore abutting on the East Coast of Vancouver Island and extending from the head of Saanich Intel to the 52nd parallel of north latitude, and all coal underlying the said foreshore, as well as the coal under the sea fronting the said foreshore, and extending out therefrom a distance of one mile, is cancelled.

Vitriol Thrower Sentenced
PARIS, March 28.—A vitroil thrower, named Eugene Barjean, has just been sentenced to twenty years' penal servitude by the assize court at Auxerre. Her victim was a rotired sergeant-major of gendarmerie named Sarrasin. It was the old story of the crime passionel. The inevitable rupture occurred. Sarrasin had arranged to marry a woman with a dot. His discarded sweetheart did not take kindly to the separation. There was a violent quarrel, and she left his house vowing that she would have her revenge. She was as good as her word. A few days later she waylaid her unfaithful Jover, and flung the contents of a bottle of vitriol in his face. The corrosive liquid burned him about the face, arms and throat, inflicting such injuries as to bring about his death two months later.

In the court the accused woman showed no contrition and gloried in her deed. Sergean-major of gendarmeric named Sarrusin. It was the old story of the crime passioned. The inevitable rupture occurred. Herr von Gottberg argues that German fears of an English attack are wholly unwarranted, because English statesmen thoroughly realize that they could never administer a decisive and lasting blow to German industrial competition, which is all Englishmen have to hope from a triumph over Germany. After seven years at the outside, Herr von Gottberg estimates, Germany would recover from an unsuccessful war and retake the industrial field more strongly equipped and a more dangerous enemy than ever. Germany, however, must continue to postpone the danger of an English attack by remaining invulnerable at sea. England will eventually be forced to extend the band of friendship to Germany and to sue for a lasting peace, continues Herr von Gottberg. Every new German Dreadnought is hastening that event. England has always made war on weaker peoples.

The Americans won their political independence: the Irish are unsuppressed rebels who are at this hour forcing a fresh compromise from their masters," and the Poers, defeated in battle, have reconducted their political and economic sovereignty.

England's inferior population and geographical position, encludes Herr von Gottberg, makes it out of the question for Great Britain to contemplate war against a strong and economically invulnerable foe with the superior population of Germany.
